SUITS AGAINST MESSRS, VILLARD, HOYT AND THE SYSTEM ELECTS THE ENTIRE TICKET OF COLBY TO RECOVER \$2,500,000 ILLEGALLY

MADE OUT OF NORTHERN PACIFIC. Manukee, Wis., Oct. 15.-The decision of Judge the motion of the attorneys for the receivers of the Northern Pacific Railroad Company to dismiss the petition of Brayton Ives and thers for the removal of Receiver Oakes was filed in the United States Circuit Court this morning. The motion is granted, Master in Chancery Carey is indorsed, and Mr. Oakes is fully exonerated. Judge Jenkins goes into a complete history of the case from the time when the matter was referred to Mr. Carr. on April 26, 1894, to report his conclusions of law and of fact upon four questions:

Whether any director of the road was intered in the Rocky Fork and Cooke City Railway mpany, or the Rocky Fork Coal Company, or in acquisition by the Northern Pacific Company the said railway and coal companies, and there any director acquired unlawful gains

orein.

The same questions concerning the Northern eiffic and Manitoba Railrond.

Facific and Manitoba Railrond.

(3) Whether there was anything wrong in respect to the Chicago and Northern Pacific's acquiring of the terminals at Chicago.

(4) Whether the Northern Pacific paid exorbitant regulars for the Chicago terminal lease, and to sift that arrangement to the bottom.

He takes the position that Mr. Oakes's position president of the Northern Pacific was unique; while he was the mominal head, he was not the financial head. He was in actual control of the operation of the road and in the conservation of perty, but not of its cash. The Board of Directors was presided over by a chairman, not the president. Such chairman appointed all the committees. Mr. Oakes had no power, save as one board of thirteen dire tion of branch lines and of terminals, etc. In consion, Judge Jenkins says:

clusion, Judge Jenkins says:

It was right that this investigation should have been had, because the record, as presented upon the former hearing, left some things unexplained. The investigation has, in the judgment of the Court, fully and completely exonerated Mr. Oakes, However painful may have been the orderd through which he was called to pass, it is a satisfaction to be assured that the thorough and exhaustive investigation leaves his character and integrity without spot or blemish. The petition will therefore be dismissed.

Interesting. He says:

It is suggested that it would be a delicate matter or Mr. Oakes, as one of the It is suggested that it would be a terrace insection of the Mr. Onkes, as one of the receivers to bring suit against some who associated with him in the previous management of this trust. There has not thus far appeared in Mr. Oakes's corduct any indication that he would hesitate through any delicacy of feeling to perform his whole duty, or to faithfully execute the orders of the Court. It will be time enough to deal with such a question when the shall arise.

Northern Pacific Company through Brayton Ives has petitioned Judge Jenkins to instruct the receivers to bring suits against Henry Villard, Colgate Hoyt and Charles T. Colby to recover nearly \$2,600,000 alleged to have been made unlawfully through Northern Pacific deals. The petition refers to the report of Master Carey and charges that Hoyt and Colby were associated with Villard in his have been made out of the Northern Pacific and Manitoba deal, \$224.800 is alleged to have been made out of the transactions of the Oregon and Trans-continental Company, in connection with the Chi-

continental Company, in connection with the Carcego Terminal deal.

About \$490,000 is alleged to have been made out
of the acquisition of the Chicago, Harlem and Batavia property, and \$670,000 from the purchase of
the Bridgeport and South Chicago property.

From the bond distribution by the Oregon and
Transcontinental Company the defendants are said
to have made \$49,900, and from the sale of the Chicago and Northern Pacific bonds by the same company \$1,000,000. Still another bond sale is alleged to
have netted \$126,000.

In addition to his decision in the Oakes case Judge
Jenkins filed another decision dismissing the petition
as far as it related to Oakes and reserved the petition of the Northern Pacific Company as to the
bringing of the suits for further consideration.

THE READING REORGANIZATION PLAN.

Philadelphia, Oct. 15.-The United States Circuit Court was well filled with financiers and attorneys at 10 o'clock this morning, when a hearing was begun before Judge Dallas upon the petition of the receivers of the Philadelphia and Reading Railroad for authority to enter into an agreement to unite with a committee to reorganize the property and authority to pay the commissions contemplated therein. Samuel Dickson represented the receivers; John R. Dos Passos, of New-York, and Charles B. McMichael, of this city, appeared for the Fitzgerald Committee of general mortgage bond-nolders; John G. Johnson and Mayor Suizbertzer, of Poiladelpnia, looked after the interests of the committee which has undertaken to rehabilitate the Reading road, and Nathan Bjur, of New-York, represented the interests of the Hartshorns Committee of general mortgage bondholders.

Judge Dallas suggested that the whole matter be

resented the interests of the Hartsoners Committee of general morigage bondholders.

Judge Dallas suggested that the whole matter he referred at once to George L. Crawford, special master in the Reading receivership. The hearing legan before Mr. Crawford at neon.

Mr. Dickson explained the plan, and was followed by Mr. Bilgur, who argued at length against its heing sanctioned by the court. The symicate named in the plan, Mr. Bilgur contended, agrees to buy figure of a continue of the plan and was followed by Mr. Bilgur contended, agrees to buy figure of also, hit does not agree to raise the online 110,000,000 necessary to float the company. The attorney then characterized as illegal the establishment of a voting trust to be in the hands of the Central Trust Company, of New-York.

Mr. Dickson said in reply to Mr. Bilgur's argument that it is true the plan does not provide for a complete reorganization of the company. He contended, however, that what is proposed to be done is majeried on the face of the plan and for this reason the court should consider some of its features.

Mr. Bilgur then resumed his argument, that this plan would not take the Reading out of the hands of receivers, nor would it adjudente large claims, such as those held by the Leitgh Valley Company and others.

When Mr. Biljur had ended John B. Gleason, of New-York, began an argument against the confirmation of the plan, on behalf of a number of holders of first income bonds.

ENTHUSIASTIC RALLY. The C. C. Shayne Republican Club mustered all the young Republicans of Harlem last evening in Madison Hall, One-hundred-and-twenty-fifth-st, and Madison-ave. There were also some of the older element, and even a representative or two from the Democratic ranks. One proselyte, in an excess of zeal, shouted out his intentions to vote for Morton and came near being rewarded with a seat of platform. The hall overflowed with humanity. and female, brass bands, transparencies and a whole Club of the XXVIth Assembly District, David Freidsam president, and the Lexington Republican Club. J. M. Doremus president. These marched in to the sound of fife and drum and redoubted cheers.

"It is often remarked that politicians or political parties have no principles. While this may be true of many, perhaps too many, politicians and, we believe at this time, is largely true of the bemocratic party, which seems ready always to fuse with any other party or faction that will give it victory, or is ready to be led by individuals who may personally be popular but are devoid or principle—the Republican party has principles that it adheres to, and when in power entorees in splitt as well as in letter. The people governed by in-diaract and always have been prosperious and happy.

Mr. Folliver's speech was of a more National character, and made a powerful plea for the principles that his friend had referred to. He cited bemocratic authorities to prove the constitutionality of Protection, and declared beyond argument that the hard times came, not from silver legislation, but that now notorious "crazy midnight" of a Democratic convention in Chicago two years ago. When all the other speakers had done, there was an irresistible demand for the man from lowaronce more. He was compelled to mount the plate form and speak a second time.

The adverse balances for the years ended June 39, 1838, 1839, 1888 and 1881 occurred during Buchanan or Democratic years. I call 1831 Democratic because eight months of it were during the Administration of Mr. Buchanan, and the receipts from Republican linanclering did not begin until after June 30, 1831. Then came the four years of war. The enormous excess of expenditures during those years arose from expenditures out of the receipts from almost \$1,000,000,000,000 of bonds issued in order to save the life of this Nation, but the actual receipts from revenues during this period was much in excess of expenditures of the receipts from almost \$1,000,000,000,000 of bonds issued in order to save the life of this Nation, but the actual receipts from almost \$1,000,000,000,000 of bonds issued in order to save the life of this Nation, but the actual resemble from 1865 to Republican statesmanship in the continuous record on the right side of the stander sheet from 1865 to 1830 inclusive. SPIRITS FROM BEET-SUGAR MOLASSES. Omaha, Neb., Oct. 15.—An experiment of great commercial value was successfully made at the

Columbian Distillery Saturday—the production of pure spirits from beet-sugar molasses. The experiment was in every way successful, and, from now on, a car a day of the molasses will be used at the distillery and converted into spirits. The success of the distillation is the more important from the fact that it will afford additional profit o the sugar manufacturers and give new impetus to the great industry. The molasses used in the test was obtained from the Oxnard factory at Grand Island, and the Columbia is now using a car a day of the product. The secret of the French system is the conversion of alkaline salts by a chemical process, which transforms the molasses into a sort of gueose, which is perfectly adapted for distillery uses.

A CASHIER SHOT BY HIS BROTHER.

New-Haven, Conn., Oct. 15.-The centre of this ity, near the postoffice, was thrown into great exitement this afternoon by two pistol shots at the entrance to the Mechanics' National Bank, at Centre and Church sts. One of the shots took effect in the cashier's leg, but how serious the wound will prove to be cannot now be told. Elisha Trowbridge had been in the bank in conversation with his brother for a few minutes, and then started to leave the building. At the door he turned, drew a revolver and fred two shots. He then started to walk rapidly down the street, but was soon arrested. The wounded cashier and his friends positively refuse to discuss the matter. CLOSE OF THE POINT BREEZE MEETING. Philadelphia, Oct. 15.—The fall meeting of the Philadelphia Driving Association at Point came to an end to-day. Although admission was free, the co.d weather probably kept the attendance down, as very few people went to the park. The cold also affected the horses and poor time was made. The 2.19 and 2.29 races, which were unfinished from Friday, were won by Guy and Belle Freeman, respectively, the favorites, and the 2.10 pacing and the 2.11 trotting races also went to the Levorites, Paul and Judge Austin.

SHE LIGHTS HER OWN PYRE.

A WOMAN BURNS HERSELF AND THREE CHILDREN TO DEATH.

WHILE TEMPORARILY INSANE, SHE TAKES HER LITTLE ONES TO A STABLE, LOCKS HER-SELP IN AND SETS THE

PLACE ON FIRE.

Mrs. Thomas Harrigan, of South Elizabeth, N. J., while temporarily insane yesterday, destroyed the lives of herself and her three children by setting fire to her husband's barn, in which she had fast-ened herself with the little ones. She also, before going to the barn, kindled a fire in a woodbox in finance which can compare with this splendid the kitchen of her house, with the evident intention record. In analyzing this interesting table to- of destroying the building.

When the neighbors discovered the barn ablaze they sent out an alarm for the firemen and gathered to watch the flames. They were powerless to do anything toward putting the fire out, as the place is in the outskirts of the city, and there is no water supply nearer than a quarter of a mile. The firemen did not have hose enough, and they also were crippled in their efforts. While the barn was burning, Miss Rebecca Hall and Miss Kate Harrigan, a sister of the owner, saw smoke pouring out of the windows of the house, and, running to it, they opened the door and found a soapbox full of wood and shavings blazing fiercely on the kitchen floor. They dashed a pail of water over the flames and then grabbed the burning box and threw it into the yard.

They went upstairs, but found no one in house, and supposed that Mrs. Harrigan and her children were away from home The woman's mother, Mrs. Quinn, arrived at the

house shortly afterward to inquire for her daughter. Then the people began to feel alarmed,

Atlantic Coast and in Booky Mountain districts, and it has fallen in the central valleys and the lake regions. It is generally coller at Atlantic Coast stations and in the entral Rocky Mountain regions, and warmer in all other central Rocky Mountain regions, and warmer in all other districts. Fair weather prevails in all districts. Reports from Key West indicate the presence of a cyclonic dis-turbance to the east of the Bahamas, and also announce the presence of a storm in the Gulf, but the reports from count stations are not sufficient to indicate the location of these storms. The weather will continue fair, with rising temperature in the central valleys, and thence east to the Atlantic Court.
